EDUCATION

Keio University April 2026 - Present
Ph.D. in Economics

Keio University April 2024 - March 2026
M.A. in Economics

Rikkyo University April 2020 - March 2024
B.A. in Economics

RESEARCH INTERESTS

Macroeconomics: Heterogeneous Agent Models, Numerical Solution, Firm Dynamics
Machine Learning: Deep Learning for Dynamic Models, Theory of Deep Learning

WORKING PAPERS

1. Accelerating the Krusell-Smith Method
   Revised October 21, 2026. Finalist, SCE Student Paper Award, CEF Conference.

WORK IN PROGRESS

1. When Does Depth Matter? A Barron Space Perspective on Economic Models
2. Deep Surrogate Dynamic Programming for Structural Models: An Application to R&D Investment and Tax Policy Evaluation (with Kenta Ikeuchi and Kei Hirano)

RESEARCH ASSISTANT EXPERIENCE

Research Assistant for Tatsuro Senga August 2024 - August 2025

Research Assistant for Ippei Fujiwara and Shinnosuke Kikuchi May 2025 - November 2025
Project at RIETI

Research Assistant for Kenta Ikeuchi October 2025 - Present
Project at RIETI

TEACHING ASSISTANT

Macroeconomics I-2 (Yi Fangyuan) 2025, 2026

PRESENTATIONS

- 2026: Macroeconomics Workshop, Waseda University (Tokyo, Japan; scheduled for October 26)
- 2026: SMLE Annual Conference: Machine Learning in Economics (Beijing, China)
- 2026: 32nd International Conference on Computing in Economics and Finance (Venice, Italy)
- 2025: Deep Learning for Dynamic Stochastic Models Conference (Turin, Italy)
- 2025: Workshop at Yonsei University (Seoul, Korea)

SKILLS

Programming Python (PyTorch), Fortran, CUDA, MATLAB, Julia, Stata
Languages Japanese (Native), English (Fluent)
